It's no longer just about wearing red; it's no longer just about sharing heart health facts. It's about ALL women and men, making a commitment to stand together with the American Heart Association -American Stroke Association and Go Red as we all take charge of our heart health.

Every **40 secs** someone dies from heart disease and stroke, yet 80% of heart disease is preventable.

**ART IS GOOD FOR YOUR HEART!**

Did you know that creating **ART** can be used to relieve stress and relax your mind and body?

Listening to **MUSIC** can:

- Improve blood vessel function by relaxing arteries
- Help heart rate and blood pressure levels to return to baseline more quickly after physical exertion
- Ease anxiety in heart attack survivors
- Help people recovering from heart surgery to feel less pain and anxiety (and possibly sleep better).

*According to an article in Harvard Health (as evidenced by a number of different studies)

We encourage you to **WEAR RED** and stop by the many Art Hop Venues that are supporting the **GO RED** movement. Plus, the American Heart Association will be at the Epic Center hosting live Art Therapy sessions! Look for the big red dress out front!
